Career Objective

To utilize my expertise in software quality assurance, gained through diverse experience in testing various applications and collaborating within Agile teams and want to contribute effectively to the success of projects I am involved. Also Seeking a challenging role where I can leverage my skills in manual and automation testing to ensure the delivery of high-quality software solutions while continuously improving processes and methodologies.

Experience

- **SQA Engineer** July, 2024 - Present
Interlink Techsoft Limited
 - Working with various projects including Library Management System of Bangla Academy and all District Public Libraries, Document Management System, User Management System, E-Book and E-Clipping management System, Id Card Management System, Bag Management System, Visitor management System.
- **SQA Engineer** April, 2024 - June, 2024
TNC Global Limited(Saas ERP)
 - Testing API, UI/UX, Android and iOS, Web App simultaneously for our upcoming Saas
 - Actively participating in Agile methodology with my team
 - Guiding junior to complete the assigned task
- **Jr. SQA Engineer** March, 2023 - March, 2024
Beacontech Limited
 - Beacon ERP
 - * Working on Merchandising, Procurement, Store, Production, planning, Shipment module
 - * Collaborating with software developers to work on new features, improvement of existing features and bug fixing
 - * Follow up and maintain defect lifecycle with the team
 - * Performing UAT and GUI Testing
 - Conducting session on user manual with users
 - Continuous customer support
 - Participate in Software Implementation to new client
- **Trainee SQA Engineer** Dec, 2022 - Feb, 2023
Beacontech Limited
 - Beacon ERP
 - * Worked on HRMS and Payroll module
 - * Participated in requirement analysis
 - * Prepared Test Case document and performed manual testing

- * Bug Reporting and Tracking using Trello
- * Regression Test
- My great achievement in this 4(four) month journey is to make HRMS and Payroll module stable by helping dev team to fix bugs faster by raising them early in the software development life cycle
